

# GP Retail Times

We support South Africa's vaccination drive

It's the tiniest dot.  
Such a small spot.  
Which saves a lot.

## GP Retail at the Forefront of Staff Development

It is with pride that we announce the launch of our new website, with a brand-new jacket and a flair of culture!

The website also includes a link to GPR Training Academy, which is our service provider of choice for learnerships and online training. GPR Training Academy has embarked on a project for learners living with disabilities and at present, have over 80 disabled learners on formal training programs.

For the month of September, we have awarded 12 employees with the coveted GP CARE award, for exceptional service delivery across different clients. Congratulations to all of them on this achievement.

The new exciting project which commenced at the end of September is the well known **YES4YOUTH** program, where we have successfully placed 135 youth in new employment positions for a 12-month period. We wish the youth and their mentors the best with this new venture and trust that they will achieve great heights in the upcoming months. Watch this space for interesting articles and news about the company, and most of all: **REMEMBER to get your job!**

Charis vd Merwe, Chief HR & Training Officer
