We welcomed spring in all its glory during September, and we celebrated Heritage Day 2022 with a certain kind of colourful magic - impressive outfits all around and a very detailed Zulu outfit. What a joyful time to experience the cultural attire from the various groups, and to recognise our diversity in the workplace – it is a truly unique country that can boast such a rainbow nation.

We congratulate Rowena Meyer, from the Western Cape Supply Chain Division with the completion of her very first Comrades Marathon. May there be many more marathons for you!

A warm welcome to all new learners, who were part of the first intake of the new learnership programmes. May you study hard and find much value in the course material. We also welcome our group of learners living with disabilities with the commencement of their 12- month programme. Quality education and training forms a large part of our staff development, and we strive for the highest output on our skills development targets.

We wish all site employees and Operations Managers the best with their planning for the peak season ahead – best of luck with the preparations.

May the sun shine upon all of us in the coming months, and may we experience happiness and gratitude in our daily activities.

Charis vd Merwe, Chief HR & Training Officer
