

GP Retail Times

Youth empowerment and employment

GP Retail Operations proudly collaborated with the Western Cape Government and the Department of Economic Development and Tourism with a special project called the **'Jobseeker Mobility Project'**. The project is aimed at assisting unemployed youths with travel vouchers to empower them to get to the initial job interview and subsequent follow-up interviews, during the recruitment process.

These travel vouchers greatly increase their chances of employment, as they can travel safely with ease whilst focusing on the recruitment procedures.

GP Retail Operations was selected as an official launch partner for this project and the very first group of prospective youths were invited to participate on launch day.

We were met with Minister Mackenzie and Premier Winde, accompanied by their governmental teams. Prospective youths were issued with their travel vouchers and travelled with the Government Officials on the busses to experience the effectiveness of this project.

We thank all parties for contributing to the success of this project.
